- Emergency Management and Planning

# BH DEFENSE

## SECURITY SOLUTIONS

**REAL-WORLD EXPERTISE:** BH Defense installed advanced physical surveillance, intrusion detection, and access control and alarm systems for a major international oil company based in the Mideast. BH Defense also provided force protection and advanced personnel screening at each ECP and checkpoint in the Baghdad IZ from 2005 through turnover to the Government of Iraq in June 2010. Elements included CCTV, vehicle barriers, X-ray baggage scanners and other force protection systems and equipment.

Engineering and Design Consultancy (Unified Facilities Criteria (UFCs), Interagency Security Committee (ISC) Standards).
