Darko Jakubovic is the type of person an employer can depend on. I served with Darko from December 2009 to February 2010 at the Contingency Operating Site (COS) Marez Base Defense Operations Center (BDOC). He was assigned as an EODT Guard Supervisor and Operations Liaison Officer (LNO). As an EODT Guard Supervisor he was responsible for supervising Ugandan Guards posted in guard towers and post over a 10 plus mile area along with various entry control points. As a LNO within the BDOC, he was responsible for communicating with 60 plus guard towers and five plus entry control points. He worked to assist the Operations Staff in information processing for various base defense issues. In order to be successful, he had to understand many different procedures and standard operating procedures. Darko Jakubovic proved to be dependable and professional, the type of individual that others will hopefully emulate as they progress.

As the COS Marez Base Defense Operations Center Officer in Charge (OIC), I have had the opportunity to work with many soldiers, civilians, and other governmental employees assigned to various positions. Of those assigned, Darko Jakubovic was one of the most professional and often took the initiative to go above and beyond what was asked of him to complete the mission. Darko Jakubovic is the type of person who will improve the character of your organization through his dedication towards the completion of his assigned duties. He has a tremendous work ethic and mentors others by setting high standards.

I can be reached at michael.keasler1@us.army.mil regarding my recommendation.

MEMORANDUM TO: Whom It May Concern

SUBJECT: EODT Letter of Recommendation

This letter of recommendation is written on behalf of Darko Jakubovic, EODT Supervisor. EODT has been recognized for providing superior security service for COS Marez and LSA Diamondback, Iraq, during the performance period of their contract with the U.S. Government. As the Garrison Commander, my greatest concern is to ensure the safety and security of these two bases. Mr. Jakubovic has worked diligently with our Base Defense Operations Center (BDOC) on a daily basis to assist us with ensuring this is a safe and secure place for our troops.

The employees of EODT are always courteous and consistently pay close attention to detail with a focus on ensuring the safety of the 10,000 plus United States Forces and civilian tenants at this location. I have personally visited many of the towers and posts manned by the EODT guards and have been impressed by their professionalism. This excellent service and professionalism is primarily attributed to the leadership provided by the EODT Supervisors including Darko Jakubovic.

I can be contacted at herman.holt@us.army.mil if you have any questions regarding this letter of appreciation.
